HAPPY HAUS

Sandy Chagnaud
Fondatrice et Créatrice d'Happy Haus

SLOW, SLOW, SLOW ...

« My greatest commitment to the planet is to create clothes that can be worn on as long as possible. Clothes that we never tire of, that we love to wear again and again, which age well and become more and more beautiful over time. That's why that by imagining HAPPY HAUS, I first wanted to propose a style and not try to be fashion. Because fashion trends goes out of fashion as quickly as it is created and pushes us to consume without know what we want, what we are.

On the contrary, I wanted to offer a wardrobe that would be worn all year round around a few models, deliberately few in number, long considered so that they become evident and meet my commitment. A few dresses, a few pants, a coat, one or two jackets, a tunic like essentials made from simple and noble materials to the image of cotton and denim that I wear all the time.

My style is simple, pure, feminine and, I think timeless. It's also my lifestyle. I am not an activist, I am not perfect, much less exemplary but I try to do better, by looking for suppliers who share my values, that they manufacture denim DETOX certified by GOTS and Greenpeace, buttons in wood or corozo or that he weaves for us beautiful organic cotton or tencel, this incredibly soft fabric, made from of wood and mixed with silk. All these women and men that I have met over these years of creation, doubts and research, join me and enrich my approach, my choices every day and often show me the way. Some have become friends, all are essential and build with me this brand that I wear like an everyday fight, but also like a joy.

They are the HAPPY HAUS Family which grows every day around this dream of creating. »

Sandy
